

Name of Event

Developing and Optimizing WebAssembly Progressive Web Applications

Intel

The Intel logo is located in the bottom left corner. It consists of a stylized graphic of three overlapping squares in shades of blue, followed by the word "intel" in a lowercase, sans-serif font, with a registered trademark symbol (®) to its upper right.

intel®

Agenda

- Setting up the environment
- Outline of files to create

Windows, Chromebooks, Linux

■ Windows

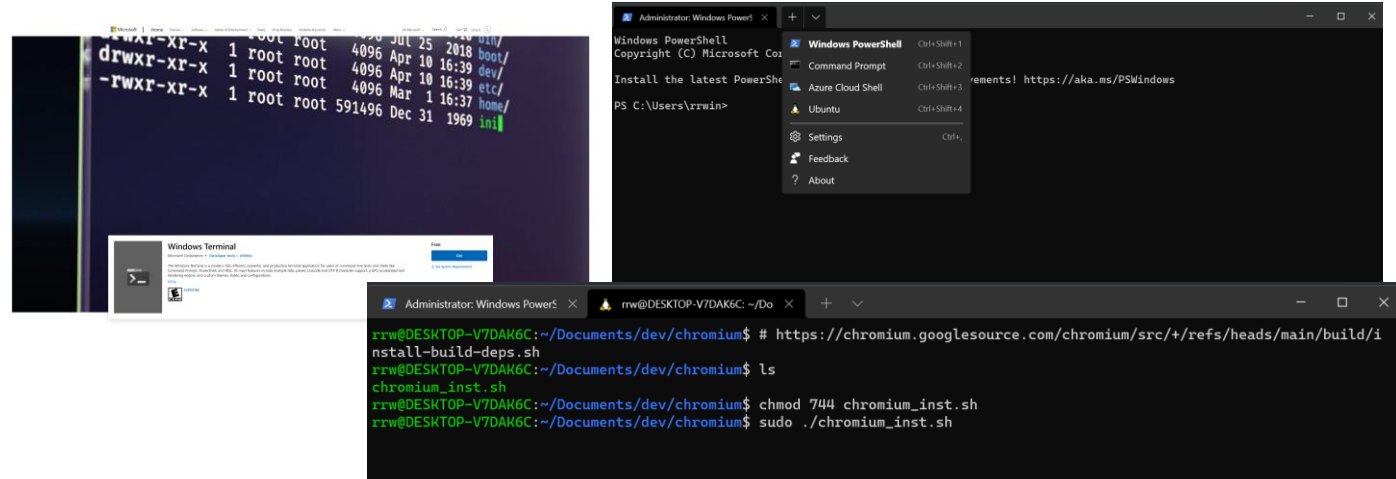

- Install Windows Terminal
- Install WSL2
- Install Ubuntu

■ Chromebooks

- Put Chromebooks into Developer mode
- Install Linux

■ Windows, Chromebooks, Linux

- Chrome Developer Environment [Chromium Linux Environment](https://chromium.googlesource.com/chromium/src/+refs/heads/main/build/install-build-deps.sh) (more than you need)
- Editor (I use Microsoft Visual Code)

WebAssembly Compiler Environment

■ Setup EMSCRIPTEN Environment

- [Emscripten SDK](#)

- `./emsdk install tot`
- `./emsdk update`
- `./emsdk install latest`
- `./emsdk activate latest`
- `Source emsdk_env.sh`

Get the files for the project
